X/4 C/S -- ANTI-REVISIONIST PROPHYLAXIS AN IMPORTANT PROBLEM

MUNICH, SEPT 4 (CMD) -- THE DAILY OF THE BULGARIAN MINISTRY OF DEFENSE, NARODNA ARMIYA, SAID TODAY THAT THE EXPERIENCE WITH REVISIONISM IN CZECHOSLOVAKIA TEACHES THAT ANTI-REVISIONIST THERAPY AND PROPHYLAXIS ARE AN IMPORTANT PROBLEM.

RADIO SOFIA SAID IN ITS PRESS REVIEW TODAY:

"REVISIONISM UNVEILS ITSELF, THIS IS THE TITLE OF AN ARTICLE BY IVAN GRIGOROV, PRINTED IN TODAY'S ISSUE OF THE NEWSPAPER, NARODNA ARMIYA.

"AFTER DWELLING ON THAT ASPECT OF REVISIONISM WHOSE SINISTER WORK WERE THE EVENTS IN HUNGARY IN 1956, IN POLAND IN MARCH THAT SAME YEAR, AND IN CZECHOSLOVAKIA, THE AUTHOR STRESSES:

"ALL THOSE (EVENTS) ARE IN ESSENCE BOURGEOIS COUNTER-REVOLUTION WHICH THREATENS THE HISTORICAL ACHIEVEMENTS OF SOCIALISM AND THE VITAL INTERESTS OF THE WHOLE SOCIALIST COMMUNITY.

"THE EXPERIENCE OF THE HARMFUL SPREADING OF REVISIONISM IN THE CZECHOSLOVAK COMMUNIST PARTY IN THE LAST FEW MONTHS - THE AUTHOR WRITES - TEACHES COMMUNISTS IN SOCIALIST COUNTRIES THAT ANTI-REVISIONIST THERAPY AND PROPHYLAXIS CONSTITUTE AN IMPORTANT PROBLEM WHICH CONCERNS THE BASIC INTERESTS OF SOCIALISM."
